Elevate LMS

Elevate LMS provides a central knowledge community to allow you to drive engagement and collaboration. Elevate supports curriculum development, certifications, informal sharing of knowledge, social learning, knowledge assessments, and seamless integrations with CommPartners online event services. Elevate's key features include:

- Integration with over 30 AMS's
- Customizable Design
- Built-in course authoring tools
- Assessment driven learning paths
- Content recommendations based on role or interest
- Integration with HigherLogic
- Certification and badging
- E-Commerce, Registration, and other monetization
- Integrated webinars and virtual conferences

Hybrid Events

Expand access from your place-based events through our full-service, livestream services. Our project managers will manage all the details, ensuring all you have to worry about is the content. Virtual Attendees will love participating through our dynamic MediaCenter2.0 player that offers a range of participation options. Key features include:

- Custom designed web platform
- Multiple or single camera productions
- Social media integration
- Mobile friendly
- Professional Remote Producers
- Support for up to 50,000 attendees
- Integrated crowdsourcing, Q & A, polls, instant feedback
- Closed captioning

Content Capture

Prolong the shelf life of your in-person conference or event and grow your education library. Let us professionally record your conference sessions, meetings, event B-roll, testimonials, and more. Key features include:

- Record 5 to 500 Sessions
- Experienced production teams
- Expert editing
- Dynamic session platform
- Quick turnaround of session recordings
